

KABIRA JUNCTION

A Fusion Music based on the Philosophy of Saint Kabir

Kabira Junction is the Junction where music lyrics and philosophy of Saint Kabir meets. The subtle and sublime message that this great visionary (Sant Kabir) conveyed, raised spirituality to a different level of astute understanding much beyond any religious boundaries.

We find Saint Kabir, absolutely contemporary and relevant to this day, where man alienates man for want of sensitivity and empathy. The lucid style of profound message has never failed to fascinate us. Every time we visit his dohas, it reveals a unique dimension of understanding.
