# ABOUT RAVISH

There are some people who just listen to music, but there are some personalities that live, eat and die on music. This young artist certainly belongs to the latter category. Life without music may be monotonous for many but Ravish's life is music. As one of industry's most respected figures, DJ Ravish has been spinning tunes for over 11 years now. Born in Nowgong (A small district in Assam) on 3rd August, he was always captivated by music and this intrigue compelled him to collect every kind of music in his teens. His music expedition kick started after completion of his secondary school, when he got a chance to spin tunes at his friend's party. Without any second thoughts about the musical path he chose, he began his journey by playing for private gigs at the age of 15. That was the phase where he realized his cup of tea was passion of electro fusion and from then on he never looked back. A learner and craver for bigger and better every time, Ravish took a stab at professional DJing in his 17s and since then he has rocked many high-quality parties across India and his tunes are considered to be the most peppy and groovy..

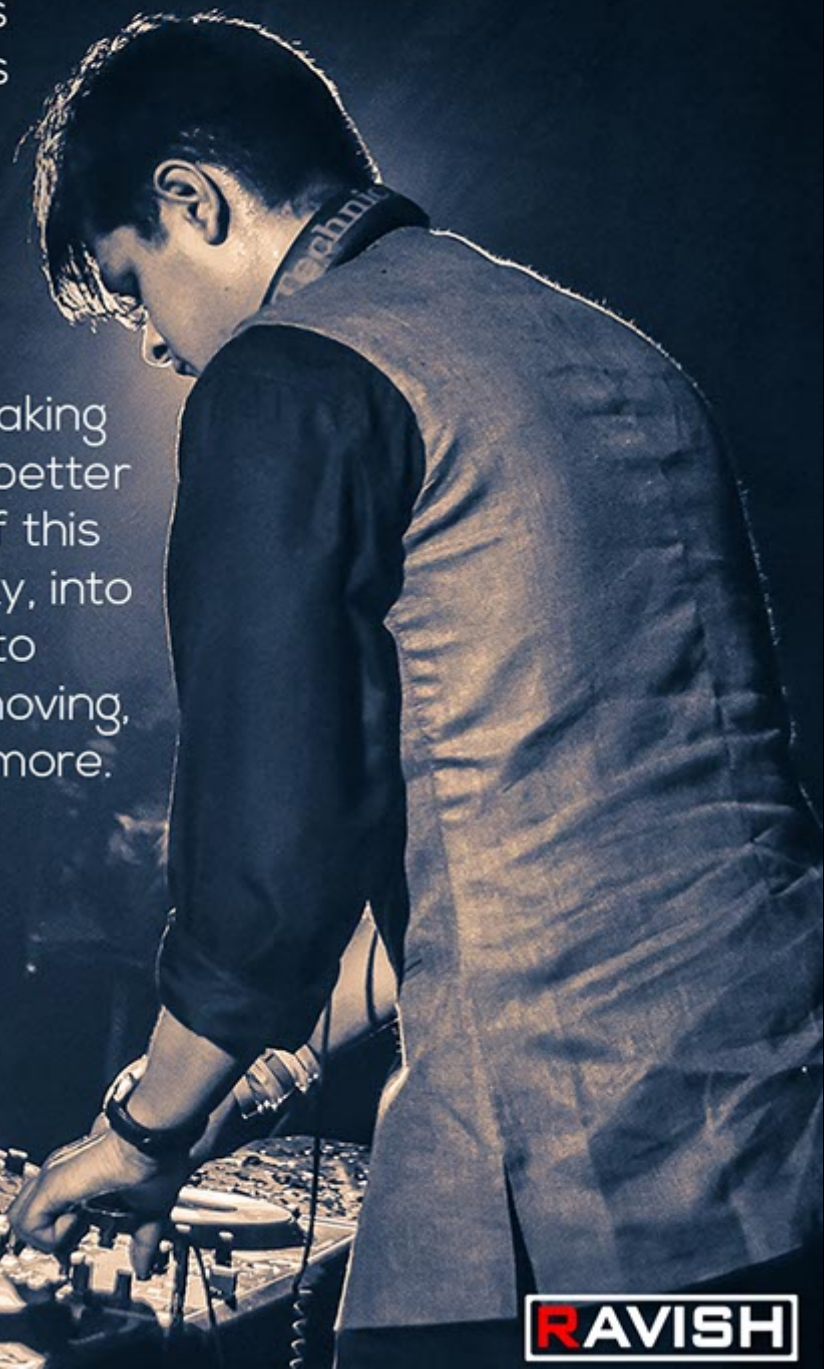

Composing his own tunes was always a burning desire in Ravish, which led him to production work and remixing. Picking up the trial & error method, he took baby steps of making his tiny, simple pieces and then headed to produce his own Bollywood grooves. Appreciation & inspiration came pouring in from some of the well-known figures of this industry. After enough of club banging mash-ups and some remixes from his side, he got into professional music production. His hard work and passion took him to new heights and a new world of moves and grooves opened up. Today Ravish has made his own brand with his all new hip jazzy bass lines and mind blowing kicks to thud the speakers.

DJ Ravish does not only know how to play his tunes, he sure knows how to organize a thumping party as well and this attitude has changed his altitude. He is known for maintaining a healthy combination of both Bollywood and House music ensuring the feet on the dance floor doesn't stop. Amicable, fun loving and adept in delivering the best quality of music has made him apple of everyone's eyes. Inspired by few of the big shot DJs of India, he is making his own way mixing the best of tracks into an even better mix. It is said that sky is the limit, but in the words of this young talent "I have to make my way beyond the sky, into the stars". So, if you are a music freak it is advised to keep an eye on this boy because he will keep you moving, grooving, dancing and making you coming back for more.

# DJ Ravish

(DJ, Remixer, Electronic Sound Producer)

**Voted - No. 6 DJ in Bollywood Category  
No. 31 DJ in Top 100 DJs of India  
Record Label - Melodic Records, Colombia (South America)  
Genres - Bollywood & House (Progressive, Funky & Electro)**

There are some people who just listen to music, but there are some creatures that live, eat and die on music. This young artist certainly belongs to the later category. As one of Jaipur's most respected industry figures, 21 year old DJ Ravish has been spinning tunes for five years now. DJ Ravish (Ravi Sharma) was born in Nowogang (A small district in Assam) on 3rd August and he always had a real passion for music. As a teenager he started collecting every kind of music. After finishing secondary school his DJ adventure began when he started spinning at his friend's party. DJing has always been a passion for him and he was exposed to musicality from a very young age.

He started off his journey from a very low level. Worked for local sound providers and understood the working of consoles. At the age of 13 he started playing for private gigs, inspired a passion for electronic music and an ambition to make a career in this fascinating, elusive little world. But that wasn't enough for him. He always wanted to make it big. Ravish entered into professional DJing at the age of 15 and since then he has rocked some of the high-quality parties in Jaipur and his tunes are considered to be the most energetic and danceable around.

But it is for his Remixing and Production work that Ravish is now starting to make it on the Electronic music stage. He always had a curiosity for softwares, to make his own tunes. He started learning them by trial and error method, and soon learned to put together small, very simple pieces and produce his own Bollywood remixes. Appreciation from some of the well-known figures of this industry made this artist never look back. After enough of club banging mash-up and some remixes from his side, he took a deep study of professional music production softwares to enhance his skills and scope of remixing. After that his remixes have taken him to new heights, with all new funky, punchier basslines and kickin' kicks to bang the speakers.

### Side of Men...

It's high time that guys get rid of the sober domination in their wardrobe. The metrosexual men today don't shy to flaunt the colours over their bodies. Sonam Saini brings you some men on and off screen that have inspired us for the colourful turt.

**Colourful**

I appreciate how guys have broken down the old types of wardrobes and allowed the world to see that they are as colourful on the outside as they are on the inside. The cameras have now made way for the girls and proper guys, across the nation. Designer Anshu Saxena, who recently presented his collection at Lakme Fashion Week Westside Fashion, says guys are getting more into styling these days. They are trying out more daring, vibrant looks and colours. More over colour blocking shades and dandy patterns. An element of interesting, quirky, contrasting colours, patterned collages and contrasting socks has been added. We looked across the city for some off screen men who live to flaunt such colours.

Indrakant Roy, a PR professional, says, "I love nature and it has all colours, if we look around we will find colours, so why not wear them and not shy away. Time is changing and guys are not shy anymore about sporting different looks and colours. More over colour blocking shades and dandy patterns. An element of interesting, quirky, contrasting colours, patterned collages and contrasting socks has been added. We looked across the city for some off screen men who live to flaunt such colours."

It's not enough to create fun, it's about personality. It's about how people look up to you. It's about how you style and create. It's about how you style and create. It's about how you style and create. It's about how you style and create.
