

## Prime Events & Conferences

Prime Events & Conferences was established in 1996 with a sole aim of providing the required technology for making an event successful in areas of Voice, Data and Video. Starting with providing technology we moved on to managing conferences and trade fairs. In a short span, Prime Events has established a reputation of delivering quality and timely services to its clients.

Our customers and associates prefer to work with us repeatedly, which gives us the credibility as a service provider in this competitive market. Quality and timely delivery is the hallmark of our services. We take all steps to ensure the event goes on smoothly at all times.
