The Band

Karma is a Delhi and Mumbai based band that has totally sensationalized the live music scene in the country. Having rocked audiences across the country, Karma is hailed as the hottest act to rock the stage. The band is known for rocking crowds with its high-energy music and scintillating performances. From beginning to end, the stage is set on fire and the audience is left chanting for MORE.

THE USP

So what makes KARMA so special? Why is a band based mainly in Delhi/Mumbai flown all over the country by their fans to perform for audiences in cities as far as Cochin, Chennai, Hyderabad, Vizag, Raipur, Jammu, Ahmedabad etc.? Is it just because of their mind blowing performances and awesome stage presence? Is it just their vast experience of having handled all kinds of audiences over 10 years, leaving them awestruck and shouting for more? Here are a few reasons why:

- **Multilingual** - Karma is perhaps the only band that performs in **Hindi, English and Punjabi**, with equal ease and finesse, across genres like pop, rock, jazz, indipop, bollywood etc.
- **Retro&Contemporary** – The band plays an eclectic mix of both retro and contemporary music in both Hindi and English.
- **Rocking and soulful** – Karma is known for its high energy music. But very few people know that the band has an immense repertoire of soft and soulful music.
- **Audience involvement-** As we take to the stage, they take to the floor. They dance with us, they clap with us, they sing with us. The audience is always as much a part of the show as the band. We don't just rock them... we rock **with** them.
- **Versatile** – Corporate gigs, private functions, clubs, college concerts, each show has its own unique requirement. The set list for each show is different depending on the audience profile.
